

# FIMS

## Overview

Government is taking many initiatives on formulating and implanting various schemes for uplifting the livelihood of fisherfolk and their family members.

ICT based solution was introduced with the aim of reforming Government delivery system by re-engineering the existing process of welfare schemes implementation with the power of ICT.

**FIMS** is a Web enabled work flow-based system for the implementation and monitoring of welfare schemes/services for the fisherfolk and transfer the benefit to the bank account of the beneficiary using DBT.

## FUNCTIONALITIES
